PROSPECTUS OF THE NORTH CAROLINA STATESMAN. THE undersigned propose, on the first day of January next, at Raleigh, North Carolina to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of gov-ernment, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the sent of the State gov-ernment. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as for others, who choose to into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attrac-tions of the editorial profession and its honorable toils, together with a desire to extend its influence. has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patronage, without interfering with the claims or rights of any now prosecuting the same errent work.

of any now prosecuting the same great work.

Although mainly deveted to the discussion of such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the federal or State governments, or such local in terests as may be of importance, it is nevertheless intended to make the Statesman a medium of general intelligence. Accordingly, the state of the markets in the principal cities, to which our commerce goes, shall be fully and accurately reported; norwill the attention of the conductors be less adworwill the attention of the conductors be less ad-dressed to the subject of internal improvements The Hive of the Bee Hunter, a repository of Sketches, including peculiar American character, accenery, and rural sports, by T. B. Thorpe, author of Tom Owen, the Bee Hunters, &c., illustrated These interests, of primary importance, shall slice. they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of experience, in that progress, which promises the advancement of the interests of North Carolina.

The general objects of the proposed paper being

thus clearly indicated, it may not be amiss briefly to state the particular views which are to be sustained by it as a political journal. 1st. Our purpose being to publish a paper purely de-mocratic, according to the straightest requirements of that party, we shall advocate strict party organi-zation in its fullest and most comprehensive sense; an organization which originates in the popula will, expressed by the people in their primary as-semblies, and which has been so successfully introduced among the democracy of many of the sther States, by which the rank and file of the party are, in fact, those who indicate its decisions and, being all brought into action, express their will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organization of the people, and not of intriguers; restoring power to those who, by sufferance, have tolerated

its temporary usurpation.

2d. The democratic party shall always find in us advocates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good sld State rights platform of '98, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of the any other measure inconsistent with the rights

3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the present administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy. 4th. They will advocate all such measures of internal improvement as promise by judicious prose-cution to promote the interests of the people and diffuse the benefits of a system already enjoyed by

of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in re-lation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to the pay-ment of the public debt, and the expenses of the government. It has for some time ceased to be government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall pretest against it, and assert the right of the old States to their equitable share of the lands which remain. The power "to dispose of the public lands being explicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do, that it has become the settled policy of Congress to squander the public lands, we adopt the patri-otic language of Mr. Dobbin, and say that "all

of North Carolina's sons, both whigs and demo-crats, should protest, and demand North Caro-lina's share of the public domain." 6th. Approving of the sentiments of the inaugural of the President, we shall oppose the acquisition of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the national

DR. MORSE'S INVIGORATING CORDIAL, Phenomenon in Medicine.—Health Restored and Life Lengthened, by Dr. Morse's Invigorating Elixir or Cordial.

A T first the properties attributed to Professor Morse's Invigorating Elixir or Cordul were deemed fabulous. The public often deceived could not believe the simple and sublime truths and nounced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown by a mass of testimony which is perfectly irresistible. The Elixir remedies in all cases the deplorable

evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate func-tion connected with that mysterious compound agency of matter and mind, necessary to the re-production of human life. To persons of feeble muscular frame, or deficient in vital power, it is muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the over-worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of sangle organ, will all find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these dethe reach of medicine. Let not even these despair. The Elixir deals with disease as it exists, without reference to causes, and will not only remove the disorder itself, but REBUILD THE BROKEN CONSTITUTION

The derangements of the system, leading to ervous diseases, and the forms of nervous disnervous diseases, and the forms of nervous disease itself, are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia tic-doloureux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility, tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep, and nove, faintness after exercise, broken sleep, and move, faintness after exercise, broken sleep, and terrifying dreams, inability to remain in one place or position, weaking of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine.

CURE OF NERVOUS DISEASES. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated, and which it occasions in the diseased, debilitated, and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, reviviñed, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is permanent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition. Well may the preparation be called the

INVIGORATING CORDIAL,

PURELY Vegetable in its composition. This
invaluable Cordial is extracted from Herbs and
Koots, which have been found after years of experience, by the most skillful physicians, to be
possessed of qualities the most beneficial in the
diseases for which it is recommended; and hence,
whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its
safety. In cases of Impotency, Homorrhages,
Disordered Sterility, Menstruation, or Suppression
of the Menses, Fluor Albus or Whites, or for

Debility arising from any cause, such as
weakness from sickness, where the patient has
been confined to bed for some time, for females
after confinement, abortion or miscarriage, this
cordial cannot be excelled in its salutary effects
or in loss of muscular energy, irritability, physical
prostration, seminal weakness, palpitation of the
heart, indigestion, sluggishness, decay of the procreative functions, nervousness, &c., where a
ronto medicine is required, it will be found equalif not superior to any compound ever used.

To Females.—Henry's Invigorating Cordial is
one of the most invaluable medicines in the many
complaints to which females are subject. It assists nature to brace the whole system, check ex
cesses, and creates renewed health and happiness.
Less suffering, disease, and unhappiness among
ladies would exist, were they generally to adopt
the use of this cordial. Ladies who are debilitated
by those obstructions which females are liable to,
are restored by the use of a bottle or two to bloom
and to vigor.
